

Bhushan Bhavrao Gangurde

Machine Learning Engineer

✉ bhushang120@gmail.com ☎ +91-8550937035  LinkedIn  Github  Portfolio

Objective

Results-driven Machine Learning Engineer with expertise in Generative AI, RAG architecture, AI Agents, and FastAPI. Proven track record in building secure, scalable, and production-ready enterprise AI solutions. Skilled in bridging advanced AI capabilities with business needs, seeking to deliver impactful, data-driven applications and end-to-end AI systems for global clients.

Experience

Machine Learning Engineer, Testaing  08/2024 – Present

Worked on end-to-end Generative AI applications, including RAG and AI agent workflows. Contributed to model evaluation, explainability, security, and observability, while developing reliable and scalable solutions for enterprise applications.

Data Analyst Intern, Edera  04/2023 – 07/2023

Leveraged Python and statistical methods at EDERA to clean complex enterprise datasets, automate analytical reporting workflows, and deliver data-driven insights that improved operational efficiency and decision-making across teams.

Projects

Enterprise AI Evaluation & Security Platform, FastAPI, Langgraph, WebSocket, Docker

Designed a platform to evaluate and test LLM, RAG, and AI agent applications. Contributed to model evaluation, explainability, security testing, and monitoring while improving the reliability of enterprise AI solutions.

Autonomous Document Generation System, FastAPI, Pydantic, Multi-Agent Architecture

Developed a document automation system that analyzes user requests, creates execution plans, and generates structured reports. Integrated Python, FastAPI, Gemini, and python-docx for end-to-end document generation and export.

Multi Document Chatbot, FastAPI, LangChain, Gradio

Developed a multi-document chatbot supporting PDF, DOCX, TXT, and Markdown files. Built the backend with FastAPI, implemented document retrieval using LangChain and integrated multiple language models for question answering. Designed the user interface with Streamlit and Gradio.

Technical Skills and Interests

Generative AI & LLMs

GPT-4(OpenAI), LLaMA, Mistral, Claude, RAG Pipelines, AI Agents (LangChain, AutoGen, LangGraph), Synthetic Data Generation, vLLM, Transformers (Hugging Face)

DevOps and Cloud Tools

Docker, Azure, CI/CD, GitHub Actions, Vast.ai , Linux

Tools & Frameworks

Hugging Face, Ollama, Gradio, Streamlit, Web Scraping

Backend

Python, FastAPI, PostgreSQL, MySQL, RESTful APIs

Machine Learning & Data Science

PyTorch, TensorFlow, Scikit-learn, NLTK, OpenCV, Statistical Modeling

Education

Master of Science (M.Sc.) in Statistics, MIT – World Peace University
CGPA:8.88

08/2021 – 05/2023
Pune, INDIA

Bachelor of Science (B.Sc.) in Statistics, Pratap College
CGPA:7.46

2018 – 2021
Amalner, India

Certification

Python Programming
DeveLearn

Business Analytics Certification
upGrad Campus

C & C++ Programming
Center for Advanced Technologies,
Pune

**Machine Learning A-Z™: Hands-
On Python & R In Data Science**
Udemy

National Science Day E-Quiz
Pratap College, Amalner

Achievements

ANALYSIS OF INDIAN TELECOM INDUSTRY,

Analyzed subscriber growth and data plan trends across major telecom operators using statistical techniques.

Secured a 4th Prize in Poster Presentation in National Level Competition at Vishwakarma University, Pune. (Jan 2020)
